

# Transforming Healthcare in Livingston County

Be surrounded by leading experts.

**St. Joseph Mercy Hospital in Howell and Brighton Health Center** have been the cornerstone of quality care for local families. Our Mission is to provide high-quality, safe, compassionate and comprehensive care. That's why we continue to make remarkable enhancements, like adding new physicians, technology/programs, facility renovations and expanding a variety of services, with the goal of keeping care local.

## **Surgical Center**

As part of our ongoing effort to transform health care in Livingston County, we have added a brand new surgical suite at St. Joe's Livingston hospital with three, 600sq.ft Operating Rooms, state-of-the-art technology, as well as new surgical pre-op and recovery rooms.

We now have the daVinci Robot, which enables our surgeons to perform minimally invasive advanced general surgery, hernia surgery, Bariatric surgery, and eventually gynecological and urological procedures. This technology supports a faster recovery time and shorter hospital stays.

## **Short Stay Center**

Our Short Stay Center at St. Joseph Mercy Brighton Health Center is an exciting new concept of care that provides a balance between inpatient and outpatient care and facilitates overnight stays for outpatients who require extended recovery. A first for Michigan, the Short Stay Center is the largest freestanding facility of its kind and will provide quality care, close to home, while reducing overall costs.
