

Be a  
part of  
what's  
next.

*Wishing our patients and the  
communities we serve good health  
and happiness in the new year*

- Angel Gomez, M.D., Chief of Staff  
Chair and Medical Director, Anesthesiology

In 1928 the McPherson Family committed to serving the health care needs of Livingston County. St. Joseph Mercy Livingston proudly continues this legacy by providing the latest technology, recruiting world class primary and specialty physicians and introducing new services that are close to home for our patients. Our mission is to improve the health of the communities we serve – it's what drives us, and it is you, our patients who inspire us to be the best in everything we do.

BeRemarkable.
